

aktaPD: an Action-oriented  
Approach to Pharmaceutical Development

## aktaPD In the News...Did You Know?

---

As an open architecture, international Life Science industry partner, we come into an organization, make a difference, and leave you better able to meet your goals. It's just that simple.

Here's what we've accomplished with our clients (and for patients) lately.

- Facilitated growth and process efficiency as interim CMO for several small and mid-size companies
- Played key role in smooth acquisition by Fortune 500 Company
- Helped raise \$20M venture capital
- Jump-started difficult and complex first-in-human protocol for neurological indication
- Engineered successful pre-IND meeting for novel anti-cancer agent
- Create development path for novel product to modulate gut microbiome
- Revised development program for unique device, facilitated site/subject enrollment
- Worked with FDA to significantly accelerate enrollment and helped raise capital, which increased company's stock price
- Helped develop EU Phase 1b/2 clinical trial for NME for rare neuro-inflammatory indications
- Designed aggressive development plan, time lines, and cost analysis from preclinical to POC for pulmonary product's orphan indication
- Delivered expert input on diagnostic test's potential indications
- Took over medical supervision for on-going international metastatic cancer program
- Expert insight in selection of RNA inhibitor platform first indications
- Supervised successful preclinical evaluation of potentially immunogenic compound
- Helped guide successful Complete Clinical Hold response for rare disease indication
- Acted as independent medical reviewer for small company's EU safety committee
- Provided industry contacts for many clients to add value to their programs
- Performed asset assessment and development
- Implemented EDC solutions, including design, build, and management
- Wrote and designed Life Sciences websites for start-ups and patient recruitment
- Delivered expertise in governance issues
- Provided expert leadership in the form of a seasoned medical director

As you can see, **aktaPD** believes in actions, not words, taking a non-traditional approach to drug development. We're an open architecture international Life Science industry partner to private, academic, and government clients developing new chemical/ molecular entities (NCEs/NMEs), biosimilars, biologics, diagnostics, and devices. We provide expertise in all facets and phases of product development, specializing in preclinical and clinical development, regulatory affairs, leadership, manufacturing, marketing, operations, technology, and knowledge transfer.
